To the Members of Council:

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of the Town of St. Paul, which comprise the consolidated statement of financial position as at December 31, 2015, and the consolidated statements of operations, change in net financial assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Town of St. Paul as at December 31, 2015, the results of its operations, change in its net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

1. Significant Accounting Policies

The consolidated financial statements of the Town of St. Paul are the representations of management prepared in accordance with Canadian generally accepted accounting principles for local governments established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants. Significant aspects of the accounting policies adopted by the town are as follows:

(a) Reporting Entity

The consolidated financial statements reflect the assets, liabilities, revenues and expenses, and change in financial position of the reporting entity. This entity is comprised of the municipal operations plus all of the organizations that are owned or controlled by the town and are, therefore, accountable to the town Council for the administration of their financial affairs and resources. These statements include the St. Paul Municipal Library.

The schedule of taxes levied also includes requisitions for education and other external organizations that are not part of the municipal reporting entity.

The statements exclude trust assets that are administered for the benefit of external parties.

Interdepartmental and organizational transactions and balances are eliminated.

(b) Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting records revenue as it is earned and measurable. Expenses are recognized as they are incurred and measurable based upon receipt of goods or services and/or the legal obligation to pay.

Funds from external parties and earnings thereon restricted by agreement or legislation are accounted for as deferred revenue until used for the purpose specified.

Government transfers, contributions and other amounts are received from third parties pursuant to legislation, regulation or agreement and may only be used for certain programs, in the completion of specific work, or for the purchase of tangible capital assets. In addition, certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenses are incurred, services performed or the tangible capital assets are acquired.

(c) <u>Cash</u>

Cash is defined as petty cash and cash in chequing accounts adjusted for outstanding cheques and deposits.

(d) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the period. Where measurement uncertainty exists, the financial statements have been prepared within reasonable limits of materiality. Actual results could differ from those estimates.

(e) Inventory of Land Held for Resale

Land held for resale is recorded at the lower of cost or net realizable value. Cost includes costs for land acquisition and improvements required to prepare the land for servicing such as clearing, stripping, and leveling charges. Related development costs incurred to provide infrastructure such as water and wastewater services, roads, sidewalks and street lighting are recorded as physical assets under their respective function.

(f) Requisition Over-levy and Under-levy

Over-levies and under-levies arise from the difference between the actual property tax levy made to cover each requisition and the actual amount requisitioned.

If the actual levy exceeds the requisition, the over-levy is accrued as a liability and property tax revenue is reduced. Where the actual levy is less than the requisition amount, the under-levy is accrued as a receivable and as property tax revenue.

Requisition tax rates in the subsequent year are adjusted for any over-levies or under-levies of the prior year.

(g) Government Transfers

Government transfers are the transfer of assets from senior levels of government that are not the result of an exchange transaction, are not expected to be repaid in the future, or the result of a direct financial return.

Government transfers are recognized in the financial statements as revenue in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be determined.

(h) Non-Financial Assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the normal course of operations. The change in non-financial assets during the year, together with the excess of revenues over expenses, provides the consolidated Change in Net Financial Assets for the year.

(i) Tangible Capital Assets

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The costs, less residual value, of the tangible capital assets are amortized on a straight-line basis over their estimated useful lives as follows:

·	<u>Years</u>
Land improvements	10-25
Buildings	50
Engineered structures	30
Roadway system	20-30
Water distribution system	40-75
Wastewater treatment system	40-75
Storm sewers	75
Machinery and equipment	10-25
Vehicles	10-15

No amortization is charged in the year of acquisition. Assets under construction are not amortized until the asset is available for productive use.

(ii) Contributions of Tangible Capital Assets

Tangible capital assets received as contributions are recorded at fair value at the date of receipt and also are recoded as revenue.

(iii) Inventories

Inventories held for consumption are recorded at the lower of cost and replacement cost.

(i) Contaminated Sites Liability

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of a contaminated site is recognized when a site is not in productive use and is management's estimate of the cost of post-remediation including operation, maintenance and monitoring.

Debenture debt is repayable to the Alberta Capital Finance Authority and bears interest at rates ranging from 4.214% to 5.875% per annum and mature in periods 2023 through 2027.

The mortgage is repayable to an individual and bears interest at 2% and matures in 2020. Monthly payments are \$6,852.

6. Long-Term Debt (continued)

The supplier loans are non-interest bearing and are repayable in equal annual instalments of \$135,418 and \$30,000.

The average annual interest rate is 4.2114% for 2015 (4.019 % for 2014).

Debt is issued on the credit and security of the Town of St. Paul at large.

Interest on long-term debt amounted to \$130,558 (2014 - \$135,451).

The town's total cash payment for interest on long-term debt was \$134,108 (2014 - \$138,086).

7. Debt Limits

Section 276(2) of the Municipal Government Act requires that debt and debt limits as defined by Alberta Regulation 255/00 for the Town of St. Paul be disclosed as follows:

	<u>2015</u>	<u>2014</u>
Total debt limit Total debt	\$ 19,643,756 (4,331,543)	\$ 19,626,160 (4,923,486)
Amount under total debt limit	\$ <u>15,312,213</u>	\$ <u>14,702,674</u>
Debt servicing limit Debt servicing	\$ 3,273,959 (1,343,479)	\$ 3,271,027 (398,688)
Amount under debt servicing limit	\$ <u>1,930,480</u>	\$ <u>2,872,339</u>

The debt limit is calculated at 1.5 times revenue of the municipality (as defined in Alberta Regulation 255/00) and the debt service limit is calculated at 0.25 times such revenue. Incurring debt beyond these limitations requires approval by the Minister of Municipal Affairs. These thresholds are guidelines used by Alberta Municipal Affairs to identify municipalities that could be at financial risk if further debt is acquired. The calculation taken alone does not represent the financial stability of the municipality. Rather, the financial statements must be interpreted as a whole.

Chief Administrative Officer (2)	157,009	27,493	184,502	- 152,438

- (a) Salary includes regular base pay, overtime, lump sum payments, gross honoraria and any other direct cash remuneration.
- (b) Employer's share of all employee benefits and contributions or payments made on behalf of employees including pension, health care, dental coverage, group life insurance, accidental disability and dismemberment insurance, and long and short term disability plans, professional memberships and tuition and council travel.

11. Segmented Disclosure

The Town of St. Paul provides a range of services to its ratepayers. For each reported segment, revenues and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. The accounting policies used in these segments are consistent with those followed in the preparation of the financial statements as disclosed in note 1.

Refer to Schedule 6 – Segmented Disclosure.

12. Contingencies

- (a) The Town of St. Paul is a member of the Alberta Municipal Insurance Exchange (MUNIX). Under the terms of membership, the Town of St. Paul could become liable for its proportionate share of any claim losses in excess of the funds held by the exchange. Any liability incurred would be accounted for as a current transaction in the year the losses are determined.
- (b) The town has guaranteed \$1,000,000 in loans at the Servus Credit Union for the St. Paul Golf Club. As at December 31, 2015 the mortgage balance outstanding was \$823,977. The town will be assuming this mortgage in 2016.
- (c) The Town of St. Paul is a member of the Evergreen Regional Waste Management Services Commission. Each participating municipality funds a portion of the Commission's deficit based on their proportionate tippage for the year. The expense is accounted for as a current transaction in the year the deficit is incurred.

13. Commitments

- (a) The Town has signed an agreement with North East Muni-Corr Ltd. for the purchase of two parcels of land. The agreement is non-interest bearing and is being paid in annual installments of \$30,000. Although title for the properties will not be transferred to the Town until the final payment is made, the Town has recorded the land as an asset and the payable as a long-term debt.
- (b) The Town has signed an agreement with the Elk Point/St. Paul Regional Water Commission for the repayment of the debenture that the commission will be taking out for the upgrade to the St. Paul water treatment plant. The amount of the debenture and repayment terms are not currently known. The commission is responsible for 7.85% of the costs of the upgrade.

14. Local Authorities Pension Plan

Employees of the town participate in the Local Authorities Pension Plan (LAPP), which is one of the plans covered by the Alberta Public Sector Pension Plans Act. The LAPP serves about 231,000 people and 418 employers. The LAPP is financed by employer and employee contributions and by investment earnings of the LAPP Fund.

Contributions for current service are recorded as expenditures in the year in which they become due.

The town is required to make current service contributions to the LAPP of 11.39% of pensionable earnings up to the year's maximum pensionable earnings under the Canada Pension Plan and 15.84% on pensionable earnings above this amount. Employees of the town are required to make current service contributions of 10.39% of pensionable salary up to the year's maximum pensionable salary and 14.84% on pensionable salary above this amount.

Total current service contributions by the town to the LAPP in 2015 were \$328,034 (2014 - \$314,640). Total current service contributions by the employees of the town to the LAPP in 2015 were \$300,891 (2014 - \$288,551).

At December 31, 2014, the LAPP disclosed an actuarial deficiency of \$2.455 billion.

15. Contaminated Sites Liability

On January 1, 2015, the county adopted PS3260 Liability for Contaminated Sites. The standard was applied on a retroactive basis and did not result in any adjustments to the financial liabilities, tangible capital assets or accumulated surplus of the county.

16. Financial Instruments

The town's financial instruments consist of cash, credit union shares, receivables, accounts payable and accrued liabilities, and long-term debt. It is management's opinion that the town is not exposed to significant interest or currency risks arising from these financial instruments.

The town is subject to credit risk with respect to taxes and grants in place receivable and trade and other receivables. Credit risk arises from the possibility that taxpayers and entities to which the town provides services may experience financial difficulty and be unable to fulfill their obligations. The large number and diversity of taxpayers and customers minimizes the credit risk.

Unless otherwise noted, the carrying value of the financial instruments approximates fair value

17. Approval of Financial Statements

These financial statements were approved by Council and management.

18. Budget Amounts

Budget amounts are included for information purposes only and are not audited.

19. Recent Accounting Pronouncements Published But Not Yet Adopted

PSAB Section 3041, Portfolio Investments

This standard is effective for the 2016 fiscal year and addresses the distinction between temporary and portfolio investments.

PSAB Section 3450, Financial Instruments

PS3450 establishes recognition, measurement and disclosure requirements for derivative and non-derivative financial instruments, effective for the 2016 fiscal year.
