

PUBLIC WORKS

Meter Readings

As of February 1st, 2020 the Town of St. Paul will be re-implementing the meter reading protocol as per By-Law #2019-10.

This pertains to residences that have not had the new electronic meters installed.

If your residence has not provided a meter reading for two billing cycles (4 months), a door knocker notice (red in colour) will be left.

Once the notice has been left, residents will have one week in which to provide the Town with a meter reading.

If residents do not provide a meter reading within this time, a \$50.00 Meter Read Fee will be applied to the customers next utility billing.

If you have any questions, please call Brooke Royer at 780-645-4481 Ext: 2104 or by email: utilities@town.stpaul.ab.ca
